

## UK Energy Market – Before & Beyond Brexit

Thursday 15th March 2018 at The Royal Society, London, SW1Y 5AG

With two elections behind us and plans to leave the EU ahead of us, is there a sound policy to determine our energy needs? Let's discuss the proposed strategies that are likely to come up and consider whether they match the needs of the UK in or out of Europe.

Other topics will speak about challenges and best practices of managing large international energy portfolios and how to utilise opportunities from the commodity markets.
